1. Files to upload (full paths)

App bundle (.aab)	C:\laragon\www\Smart caller\android\app\build\outputs\bundle\playRelease\app-play-release.aab (build: `gradlew.bat clean :app:bundlePlayRelease` in C:\laragon\www\Smart caller\android)
App icon 512×512	C:\laragon\www\Smart caller\brand\rovexy-2026\rovexy-app-icon-512.png
Feature graphic 1024×500	C:\laragon\www\Smart caller\brand\play\rovexy-feature-graphic-1024x500.png (ready)
Phone screenshots (2–8)	Take on the phone from the release build with demo data (Login, Cases, Case detail, Field map, Call result, Payment). Save to C:\laragon\www\Smart caller\brand\play\screenshots\ . PNG/JPG, 1080×2400.
FGS videos (4)	Record 30–90 s each on a real phone, upload to YouTube as **Unlisted**, paste the links (section 5).
Upload key (keep, do not upload)	C:\Users\DELL\.gradle\rovexy-upload.jks

2. Create app

Path	Play Console → Home → Create app
App name	ROVEXY
Default language	English (India) – en-IN
App or game	App
Free or paid	Free
Declarations	Tick Developer Program Policies and US export laws → Create app

3. Store listing

Grow users → Store presence → Main store listing

App name	ROVEXY
Short description	Calls, visits and collections for field teams, recorded and on the company map.
Full description	Copy the text in the box below.
Category	App category: Business · Tags: Business, Productivity
Email	support@rovexy.app
Phone	+91 90000 98877
Website	https://rovexy.app
Privacy policy	https://rovexy.app/privacy

ROVEXY is a work app for collection agencies and field teams. Your company signs you in; the app works only with your company's ROVEXY workspace.

For field staff
• See your assigned cases with dues, address and history.
• Call customers from your own phone; your phone's recorder keeps the call on record.
• Save the outcome: promise to pay, payment collected (with slip photo), callback, not reachable and more.
• Field map: customers near you, routes and one-tap navigation.
• Visits are verified at the customer's address.
• Chat and internet voice calls with your supervisor.

For supervisors and managers (web console)
• Live team status and location during work hours.
• Call recordings, outcomes and payments in one place.
• Allocate and transfer cases, verify payment slips.

Transparent by design
• A ROVEXY notification is always shown while location, a call or a session is active.
• Screen and camera sessions start only after you accept them, every time.
• "What my company can see" shows exactly what is collected.

ROVEXY needs an account from your employer. Companies can request a demo at https://rovexy.app.

Do not use the words: spy, secret, track anyone, best, #1, 100% recovery.

4. App content (Policy → App content)

Privacy policy	https://rovexy.app/privacy

App access	**All or some functionality is restricted** → Add instructions: Name: Reviewer login · Server URL: https://rovexy.app · Company workspace: **review** User ID: **REVIEW01** · Password: **PlayReview#2026** (set the same on the server) Notes: “Tap Connect / Register, then sign in. The phone is auto-approved. Tap Continue on the disclosure and allow permissions. Calls are not recorded in this demo workspace. Works on emulators.”
Ads	No, my app does not contain ads
Content rating	Email support@rovexy.app · Category: **All other app types** · Violence, sexuality, language, drugs, gambling: **No** · Users interact or exchange content: **Yes** (chat with supervisor) · Shares user location with other users: **Yes** · Digital purchases: **No**
Target audience	**18 and over** only · Appeals to children: No
News app	No
Health apps	My app does not have any health features
Government app	No
Financial features	Other → “Business tool for collection agencies to record calls, visits and payments; no loans, no payment processing.”
Advertising ID	No
Data safety	See section 6
Foreground service	See section 5
Full-screen intent	Yes → **Calling** (incoming voice call from the supervisor)

5. Foreground service declarations

App content → Foreground service permissions. One entry per type; video = unlisted YouTube link showing the feature and its notification.

Location	Task: “Shows the field employee’s position on the company map and verifies customer visits during a work session started by the employee. A ROVEXY notification is shown the whole time.” Video: start work session → notification → map.
Microphone	Task: “Internet voice call between employee and supervisor that continues when the screen is off.” Video: supervisor calls → Answer → notification.
Media projection	Task: “Screen sharing with the supervisor, only after the employee accepts and Android’s own screen-capture prompt.” Video: request → Accept → Start now → notification.
Camera	Task: “Live camera session with the supervisor, only after the employee accepts; camera indicator shown.” Video: request → Accept → camera view → notification.

6. Data safety form

Collects or shares data?	Yes
Encrypted in transit?	Yes
Account creation	My app does not allow users to create an account (the employer creates accounts). Delete-request URL: https://rovexy.app/delete-account
Shared with third parties?	No (data goes only to the employer’s ROVEXY workspace)
Users can request deletion?	Yes — https://rovexy.app/delete-account

Category	Data type	Status	Required?	Purpose
Location	Precise + Approximate	Collected	Required	App functionality
Personal info	User IDs	Collected	Required	App functionality, Account management
Messages	Other in-app messages	Collected	Optional	App functionality
Photos and videos	Photos (payment slips)	Collected	Optional	App functionality
Photos and videos	Videos (live camera / screen, ephemeral)	Collected	Optional	App functionality
Audio	Voice or sound recordings (call recordings, voice calls)	Collected	Required	App functionality
App activity	Other user-generated content (call outcomes, visits, payments)	Collected	Required	App functionality

Category	Data type	Status	Required ?	Purpose
App info & performance	Diagnostics	Collected	Required	App functionality
Device or other IDs	Device or other IDs	Collected	Required	App functionality, Fraud prevention & security

Mark every type **not shared**. Mark “Videos” as **processed ephemerally**. Do not tick Call logs, Contacts, SMS, Financial info or Advertising ID.

7. Upload and release

1. Internal test	Test and release → Testing → Internal testing → Testers: create list, add your Gmail IDs → Create new release
2. App signing	Accept **Use Google-generated key** (Play App Signing)
3. Upload	Drag the .aab from section 1 · Release name: **1.0.0 (1)**
4. Release notes	<en-IN>First release of ROVEXY.</en-IN>
5. Roll out	Save → Review release → Start rollout to internal testing. Install from the opt-in link on 2–3 phones.
6. Firebase	Test and release → App integrity → App signing: copy the SHA-1 and SHA-256 → add both in Firebase → Project settings → Android app → Add fingerprint
7. Pre-launch report	Wait for it (Quality → Pre-launch report). Fix crashes before production.
8. Production	Production → Countries: **India** → Create new release → Add from library (same .aab) → same notes
9. Managed publishing	Publishing overview → turn **Managed publishing ON** → Send for review
Next updates	+1 versionCode in android\app\build.gradle.kts each upload (2, 3, …), same key

8. Before you press Send for review

Server	Workspace **review** exists on rovexy.app with REVIEW01 / PlayReview#2026, auto-approve on, recording off, demo cases loaded
Website	https://rovexy.app/privacy and https://rovexy.app/delete-account are live; support@rovexy.app receives mail
App	android\app\google-services.json present before the build; release build tested on a real phone
