Brand	Deep navy #072654 / #0A2A5C, gold #D4AE6A / #B8893B, Schibsted Grotesk headings, app screens in Roboto
Screens	ROVEXY screens with demo data (Sunrise Recoveries, Hyderabad sample cases)

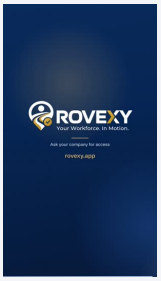

2. Google Play checks (preview video, checked 17 Oct 2026)

Upload	YouTube, **Unlisted** or Public, not age-restricted, embeddable, **monetisation off** → paste the single video URL in Store listing → Preview video
Real app early	First app screen at 4.2 s (rule: within 10 s) ✓
80% app experience	Logo/benefit scenes ≈ 15 s of 64 s → ~77% app screens; trim the benefits scene if Google flags it
First 30 s	Plays muted: on-screen headings + captions carry the message ✓
No CTA / claims	No “Download now”, “Best”, “Free” or pricing (Google guideline) ✓
No finger taps	Gold highlights instead of taps ✓
Orientation	Portrait allowed; no black bars ✓

3. Scene by scene

Frame	Scene	On-screen text	Voice-over	Animation
	**Opening** 0.0–4.2 s	ROVEXY logo · “Calls · Visits · Collections”	“Meet ROVEXY.”	Logo scales in with a soft blur-to-sharp reveal; gold rule draws; tagline fades up.
	**Introduction** 4.2–11.6 s	01 · INTRODUCING — Field collections, **on record.**	“The work app for collection agencies and their field teams. Calls, visits and payments, all on record.”	Phone rises from below with the sign-in screen; heading words stagger in, chips follow.
	**Cases** 11.6–18.4 s	02 · CASES — Your day, **prioritised.**	“Each day starts with prioritised cases. Dues, follow-ups and progress, at a glance.”	Phone glides left; gold pulse highlights the day stats, then the priority tiles.

Frame	Scene	On-screen text	Voice-over	Animation
	**Case detail** 18.4–24.7 s	03 · CASE DETAIL — Every case **in one place.**	“Open a case to call the customer, set a callback, record a payment, or get directions.”	Phone glides right; highlight on Call / Callback / Payment / Directions.
	**Calls** 24.7–31.5 s	04 · CALLS — Every call **on record.**	“Calls go out from the employee's own phone. The recording and the call outcome are saved together.”	Call feedback screen; highlight “Recording saved”, then the outcome list.
	**Payments** 31.5–38.3 s	05 · PAYMENTS — Payments **on the spot.**	“Collect payments on the spot, with the mode, reference and a slip photo, for the office to verify.”	Record-payment screen; highlights step through amount, payment mode, slip photo.
	**Field visits** 38.3–44.6 s	06 · FIELD VISITS — Customers **near you.**	“Customers near me shows who to visit next. Navigate there, and check in at the address.”	Map crossfades: nearest customer → walked up → checked in; highlight on Check in.
	**Supervision** 44.6–52.4 s	07 · SUPERVISION — Your supervisor, **one tap away.**	“Supervisors can message, call over the internet, or ask to see the screen, only when the employee accepts.”	Screens crossfade: chat → incoming internet call → screen-sharing request → sharing banner.
	**Benefits** 52.4–59.1 s	WHY ROVEXY — Made for teams in the field	“Transparent by design. Built for collections. Connected to your office, in real time.”	Phone drops away; three glass cards slide in, one per spoken benefit.

Frame	Scene	On-screen text	Voice-over	Animation
	**Ending** 59.1–63.9 s	ROVEXY · Ask your company for access · rovexy.app	“ROVEXY. Your workforce, in motion.”	Logo returns centre; gold rule; access line and website.

4. Re-render or adapt

Source	play-upload\promo-source.zip (HTML timeline, screens, voice lines, music). Edit scenes.js (text) and render with render.js (Node + Playwright + ffmpeg).
Landscape 16:9	Same scenes: set the stage to 1920×1080 in style.css (phone left, text right) and re-render.
Change voice	Edit the lines in vo.py and re-run it; the timeline follows the new lengths.
